STUDENT BOOK REVIEW

Soldier Boys

by: Dean Hughes

I recommend this book to everyone. It is about WWII. It's from two different characters points of view. A German soldier named Dieter and an American soldier named Spence. They are both around 16 years old. Spence is in the Paratroopers. Dieter is in the Hitler Youth. There are some very funny parts in the book. For example, when Spencer's group is being trained to jump out of the plane, Spence pushes his friend Ted out of the plane because Ted is too afraid to jump. Another funny parts is when Dieter and his friend, Willie, skinny dip. Finally, there are some very serious parts to the book. Spence and

Dieter meet up at the Battle of the Bulge in Belgium. They get caught out in the open and are shot at. This is a very good book. It is funny and tragic. Please take my advise and read the book.
