STUDENT BOOK REVIEW

Double Identity

by: Margaret Peterson Haddix

I read *Double Identity* by Margaret Peterson Haddix in my genre unit in school. This is a great book for mystery lovers. It is about a girl named Bethany that is dropped off at her long lost aunt's house and figures out she has a long lost sister that died. As the story unravels, she figures out a disturbing secret about her past. I love that part because you figure out a huge piece of the puzzle.

This book is full of secrets and red herrings. So go to a library or bookstore and pick up *Double Identity* today.
